Your company's initial application for asbestos registration is accepted, and has been assigned registration number 1297. The registration commences on February 19, 2025 and continues for one (1) year through February 19, 2026.

It is your company's obligation to contact the CSLB and inform them that your company is now registered to perform asbestos-related work.

Be very careful to send in all status changes on a timely basis, such as name, business entity type, workers' compensation insurance, CSLB #, ownership and contact information. Be aware that the DOSH registration number assigned to your company is for a specific CSLB # and name. If these change, your company may be required to reapply as an initial applicant. To avoid unnecessary business interruptions, your company must notify the Division as soon as possible when these changes are planned or occur. Use the attached form for all status changes.

As always, one condition of continued registration is provision of timely responses to requests for information with regard to your company's compliance history.

This registration is subject to annual renewal by the Division. A renewal application notice will be sent two months in advance of the registration date. However, the submittal of your company's renewal application, registration fee, and all supporting documents must be received by our office at least 30 days before the current expiration date per T8 CCR 341.7(c), even if the notice is not received.

Sincerely,

A handwritten signature in blue ink, appearing to read "Linda Ikami".
